## 12. Pomarka

This application is made in behalf of the undersigned water users that have a decreed right from Martin Creek as shown in that certain document known as Findings of Fact, Conclusions of Law and Decree Mo. 3157, and any owner of a permit granted by the State Engineer prior to this application for the waters of Martin Creek.

This application is made for the yearly diversion of 60,000 acre feet of the surplus waters of Martin Creek. The surplus water of Martin Creek shall be the water that flows during the non-irrigation season that is in the excess of the water that is needed for stock water during this season as set forth in the Finding 13, page 10, of the Little Humboldt Decree and any permits that have been granted prior to this application by the State Engineer for the waters of Martin Creek during the non-irrigation season.

The surplus water stored under this application shall be distributed by the State Engineer to the undersigned decreed owners of water rights according to priorities and proportions as shown in the abovementioned Little Humboldt Decree.

Any water user that has a right in this application may accumulate his decreed water from Martin Creek during the irrigation season in the reservoir for the purpose of using it in a head and at a time best suited to him for good husbandry (Finding 17, page 10, Little: Humboldt Decree).
